FIRE & FLOOD

A K-TEK™ product for ATARI® computer systems

Mount St. Helen has erupted! Suddenly, it's up to you to stage perhaps the most daring rescue ever attempted during a natural disaster! As flood waters threaten your launch pad and volcanic debris swirls wildly in the air, pilot your helicopter to the top of the cliff and rescue stranded victims. Your trip must be repeated many times, and your level window is warning that your launch pad is almost flooded!

KYOK™ Software

TO LOAD:

1) Turn off ATARI® 800 computer and disk drive.
2) Insert the BASIC language cartridge into the left cartridge slot in the computer.
3) Turn on disk drive, insert game disk as described in instruction manual, and close door.
4) Turn on computer and game will load into computer memory.
5) Connect joystick to controller port no. 1 at the front of the computer.

TO PLAY:

Use your joystick to control helicopter as you head for victims stranded in the burning house on the cliff. Be careful! Flying debris will send your ship crashing to the ground. Be sure to watch the level window on your screen. It will tell you how high the water is rising toward your launching pad. When level gets to 120, the game ends. For each rescue attempt, touch every part of the helicopter to the house and listen for a beep which indicates all passengers are loaded. Return to launching pad. Beep will indicate passengers are unloaded. Then begin your return trip. The more passengers you can rescue before the water level hits 120, the higher your score.

REQUIREMENTS: ATARI® 800 Computer, Basic Cartridge, Disk Drive, Joystick & Hi-Res Screen.

WARNING:

Unauthorized reproduction of this recording is prohibited by Federal Law and subject to criminal prosecution.

K-TEL SOFTWARE, INC.
LIMITED 30-DAY WARRANTY
FOR DISKETTE/CASSETTE SOFTWARE

K-TEL SOFTWARE, INC. shall have no responsibility or liability to the customer or purchaser in regard to any liability, loss or damage caused, or alleged to be caused, directly or indirectly by any software diskette/cassette manufactured by or distributed by K-TEL SOFTWARE, INC.

K-TEL SOFTWARE, INC. warrants to the original consumer purchaser that this diskette/cassette shall be free from any defects in materials or workmanship for a period of 30 days from the date of purchase. If a defect which is covered by this warranty is discovered within the 30-day period, K-TEL SOFTWARE, INC. will replace the diskette/cassette providing the product and proof of date of purchase is mailed or delivered postage prepaid to the nearest location of K-TEL SOFTWARE, INC.

This warranty shall not apply if the diskette/cassette (1) has been damaged by playback equipment, or while being used with any products not designated by K-TEL SOFTWARE, INC. (2) has been misused or shows signs of excessive wear, or (3) if the purchaser causes or permits the diskette/cassette to be modified by anyone other than K-TEL SOFTWARE, INC.

If at any time after the 30-day warranty period your software becomes defective, the software and proof of date of purchase should be mailed or delivered postage prepaid to the nearest location of K-TEL SOFTWARE, INC. and we will replace the software for a $5.00 service charge.
